REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in the following books.

LATIN DEPARTMENT.

The whole of Virgil,
The whole of Cæsar's Commentaries,*
Cicero's Select Orations, Folsom's edition,
Andrews and Stoddard's Latin Grammar, including Prosody,*
And in writing Latin.

GREEK DEPARTMENT.

Felton's Greek Reader,*
Sophocles's Greek Grammar, including Prosody,*
And in writing Greek with the Accents.

MATHEMATICAL DEPARTMENT.

Davies's and Hill's Arithmetics,
Euler's Algebra, or Davies's First Lessons in Algebra to "The Extraction of the Square Root,"
And "An Introduction to Geometry and the Science of Form, prepared from the most approved Prussian Text-Books," as far as the Seventh Section, "Of Proportions."

HISTORICAL DEPARTMENT.

Worcester's Elements of History,†
Worcester's Geography.†

It is very important that the candidates should be thoroughly prepared,

---

* Teachers are requested particularly to notice that Cæsar's Commentaries, Andrews and Stoddard's Latin Grammar, Felton's Greek Reader, and Sophocles's Greek Grammar are *required* books.

† The *Ancient* History, and *Ancient* Geography, are the parts of these books which are *required*.

particularly in grammatical and elementary knowledge. If they have more time than is requisite for this purpose, instructers are desired and advised, for obvious reasons, not to anticipate the books read in College, but to direct the attention of their pupils to other authors.

TIME AND CONDITIONS OF EXAMINATION.

The examination for the Freshman Class occupies two days, and takes place in University Hall, on the Monday and Tuesday of the Commencement week, (the 15th and 16th of July,) beginning precisely *at 6 o'clock, A. M.*, on Monday morning. Attendance on both days is required.

No person will be examined for admission to the College at any other time than the commencement of a term, except in extraordinary cases.

Parents and instructers are requested not to offer candidates for examination, unless it be intended, that, if admitted, they shall immediately join their class.

Students may be admitted to advanced standing, at any part of the College course previous to the second term of the Senior year. In order to such admission to advanced standing, the candidate must appear, on examination, to be well versed in the following studies.

1. In the studies required for admission to the Freshman Class.

2. In all the *required studies* pursued by the class for which he is offered.

3. And in the *elective studies* of *two* out of the three departments of Greek, Latin, and Mathematics, pursued by that class for which he is offered. He must also pay to the Steward, at the rate of $45 per annum, according to the standing to which he is admitted. Any student, however, who has a regular dismission from another college, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, after being accepted on examination, must give a bond, with sureties, of which one at least must belong to this Commonwealth, to the satisfaction of the Steward of the College, in the sum of four hundred dollars, to pay all charges accruing under the laws and customs of the University. A certificate that such bond has been given must be exhibited to the President, before any person can be admitted to the privileges of the institution.

ACADEMICAL YEAR.

The Academical Year is divided into two TERMS and two VACATIONS.

The FIRST TERM begins six weeks after Commencement on Thursday morning, (August 30th, 1849,) and continues twenty weeks.

The FIRST VACATION begins at the end of the First Term, Wednesday evening, (January 16th, 1850,) and continues six weeks, till Thursday morning, the 28th of February.

The SECOND TERM begins at the end of the First Vacation, Thursday morning, (February 28th, 1850,) and continues twenty weeks.

The SECOND VACATION begins at the end of the Second Term, Wednesday evening, (July 17th, 1850,) and continues six weeks.

There is a RECESS of four days in each Term, during which the Students are allowed to be absent from the College.

The *First Recess* begins on the Tuesday evening before Thanksgiving, and ends on the Saturday evening following that day.

The *Second Recess* begins on Tuesday evening, (May 28th, 1850,) and ends on the Saturday evening following.

The PUBLIC EXHIBITIONS take place on the third Tuesday (16th) of October, and on the first Tuesday (7th) of May.

The DUDLEIAN LECTURE is on the second Wednesday (8th) of May.

The COMMENCEMENT is on the third Wednesday (17th) of July, 1850.

TERM BILLS.

☞ The bills, containing College charges are to be made out by the Steward, at the end of each Term ; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement ; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

DEGREE OF MASTER OF ARTS.

The degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee. Graduates of longer standing may also have the Master's degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

RESIDENT GRADUATES.

Graduates of the University, or of other Collegiate Institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to attend the public lectures given in the institution, and to enjoy the use of the Library and scientific collections, on the payment of such fees as are or may be provided. They give the same bonds as Law Students for the payment of College dues, and are subject to the same laws and regulations, as far as they are applicable.

DIVINITY SCHOOL.

Candidates for admission are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books.

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust.

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia.

Geography, Arithmetic, Geometry, and Algebra.

Whately's Logic and Rhetoric, (or some other approved treatises on Logic and Rhetoric,) Locke's Essay on the Human Understanding, Stewart's Elements of the Philosophy of the Mind, Paley's Moral Philosophy, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the class into which they propose to be received, and must pass an examination in the studies which that class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $ 100 for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $ 66 annually. Board may be had in the city at various prices from $ 2.00 to $ 3.50 a week.

Each student must possess a copy of the Old and New Testament Scriptures, in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other

exercises, on all the subjects usually included in a system of Theological Education, embracing, —

The Hebrew Language ;

The Criticism and Interpretation of the Scriptures ;

Natural Religion, and the Evidences of Revealed Religion ;

Systematic Theology, and Christian Ethics ;

Church History, and Church Polity ;

The Composition and Delivery of Sermons ;

And the Duties of the Pastoral Office.

The members of the two upper classes have a weekly exercise in the practice of Extemporaneous Speaking, and the members of the Senior Class preach in the First Church of Cambridge during the summer Term.

Students are entitled to receive instruction from the Instructer in the German Language, and to attend gratis all public lectures of the University given to undergraduates.

It is considered of great importance, that those who enter the School should be present at the beginning of the first Term.

LAW SCHOOL.

THE design of this INSTITUTION is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice ; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

The COURSE of INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity ; Admiralty ; Commercial, International, and Constitutional Law ; and the Jurisprudence of the United States. Lectures are given, also, upon the history, sources, and general principles of the Civil Law, and upon the theory and practice of Parliamentary Law.

The COURSE of INSTRUCTION for the mercantile profession is more limited, and embraces the principal branches only of Commercial Jurisprudence ; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the students desire it, of Constitutional Law.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, and the Statutes of the United States, as well as those of all the States, a regular series of all the English Reports, including the Year-Books, and also the English Statutes, as well as the principal treatises in American and English Law ; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law ; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of students during the Term, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the students are assisted by the Professors, as occasion may require, in their private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are at least nine every week.

Two Moot Courts are held in each week, at each of which a cause, previously assigned, is argued by four students, and an opinion delivered by the presiding Professor. And meetings of all the students are regularly held, at which questions and subjects of a legal character are discussed, and the debates are conducted agreeably to the rules and practice of legislative bodies.

Clubs are formed among the students, in which dissertations upon legal subjects are read, and cases argued.

No examination, and no particular course of previous study, are necessary for admission; but the student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, with a surety resident in Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No student is matriculated until such testimonials are produced, and security given.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their view of their own wants and attainments; but as a general rule, it is advisable for them, during the first

Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him such aid as they may in its pursuit as a private study.

The ACADEMICAL YEAR, which commences on Thursday, six weeks after the third Wednesday in July (August 29th, 1850), is divided into two Terms, of twenty weeks each, with a vacation of six weeks at the end of each Term.

The Course of Study under the different Instructers is as follows.

FIRST YEAR.

Commencing in the years 1848, 1850, 1852, &c.

FIRST TERM.

ROYALL PROFESSOR. *Agency, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone, Evidence, Insurance.*

DANE PROFESSOR. *Blackstone, Bills and Notes, Shipping and Admiralty.*

UNIVERSITY PROFESSOR. *Domestic Relations, Law of Real Property.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Evidence and Practice.*

DANE PROFESSOR. *Kent and Blackstone, Sales, Partnership.*

UNIVERSITY PROFESSOR. *Conflict of Laws, Law of Real Property.*

The studies in the Civil Law, Criminal Law, and Parliamentary Law, will be under the direction of the Lecturer on those branches, with aid from the Professors in his absence.

Students, who have pursued their studies for the term of eighteen months in any law institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School; or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year; are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are $50 a Term, and $25 for half or any less fraction of a Term; for which sum, without any additional charge, students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the undergraduates in the University, comprising Lectures on Anatomy and Physiology, by Professor WYMAN; on Mineralogy and Geology, by Professor WEBSTER; on Rhetoric and Criticism, by Professor CHANNING; on Botany, by Professor GRAY; and on Physics and Astronomy, by Professor LOVERING.

Upon the payment of a fee of five dollars for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Chemistry, by Professor HORSFORD; on Comparative Anatomy and Physiology, by Professor WYMAN; and on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are as follows: —

Board, twenty weeks, from $2.00 to $3.50 per week,	from $40	to	$70
Room-rent, including care of room, but not making fires,	26	to	52
Furniture (if the student does not furnish his own),	10	to	20
Washing,	7	to	15
Fuel, for the First or winter Term, from August to January,	12	to	21
" for the Second or summer Term, from February to July, from $6 to $10.			
Servant (if one is employed) to make fires, &c.,	5	to	10
	$100	to	$188

Fuel, prepared for use, is furnished by the lessee of the College wharf, at the market price, if the students desire it.

PRIZE DISSERTATIONS.

Prizes will hereafter be annually awarded for the best and second best Dissertations, written by students of the Law School, on subjects given out by the Law Faculty, as follows.

A prize of *sixty dollars* for the best, and of *fifty dollars* for the second best Dissertation, by a student who has attended the Law School three of the four Terms immediately preceding the award.

A prize of *fifty dollars* for the best, and *forty dollars* for the second best Dissertation, by a student who has attended two of the three Terms next preceding the award.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. No prize will be awarded, if no Dissertation offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the first day of May annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left for preservation in the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

No student will write on both subjects.

The following are the subjects for the present Academical Year.

MEDICAL SCHOOL.

THE MEDICAL LECTURES form a department of instruction in Harvard University. They begin annually, at the new Medical College, in North Grove Street, BOSTON, on the first Wednesday in November, at 12 o'clock, noon.

The following are the courses of Lectures delivered in this College.

Obstetrics and Medical Jurisprudence, — WALTER CHANNING, M. D.
Materia Medica and Clinical Medicine, — JACOB BIGELOW, M. D.
Theory and Practice of Physic, — JOHN WARE, M. D.
Chemistry, — JOHN W. WEBSTER, M. D.
Anatomy and Physiology, — OLIVER W. HOLMES, M. D.
Pathological Anatomy, — JOHN B. S. JACKSON, M. D.
Surgery, — HENRY J. BIGELOW, M. D.

The fee for the whole course is $ 80.*

The fee for graduation is $ 20 ; which is deposited with the Dean when application is made to him for examination.

The fee for matriculation is $ 3. This fee is appropriated to the increase of the Library, and is to be paid to the Dean by all persons who propose to attend any of the courses.

The Hospital and Library are gratuitous. Tickets for the Dissecting-Room, $ 5. No exertions are spared to obtain a supply of subjects according to the existing laws, and to furnish to the class the means of pursuing the important branch of practical anatomy. Board is as low as in any of our cities.

The CLINICAL LECTURES in Medicine and Surgery are given to the

* Fees for the tickets are required to be paid when the tickets are taken out, and no person can be admitted to a lecture who does not exhibit his ticket for the same when called for.

class on cases in the Massachusetts General Hospital, three times a week. Surgical operations at the Hospital are frequent. An abundant opportunity is thus furnished to students for most important practical observation and study.

The Lectures on ANATOMY and PHYSIOLOGY are delivered daily, and are arranged in such connection, that each branch shall serve to illustrate the other. The demonstrations are aided by a large cabinet (the Warren Anatomical Museum), which is increasing by regular accessions from year to year.

The operations of SURGERY are illustrated by anatomical demonstrations of the parts concerned. All the new operations are particularly shown. The Professors in this department have provided an extensive collection of valuable preparations in wax, to show various tumors and diseases of the skin, some colored casts in plaster of Paris, many beautiful magnified drawings of subjects in anatomy and surgery, and also the newly invented surgical instruments.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. Lectures are regularly given on the Principles and Practice of Midwifery. Separate Lectures are given in Operative Midwifery. Abundant opportunity is furnished to each member of the class to learn the use of instruments. The Lectures are illustrated by models made in Florence, and by plates. The Lectures on Medical Jurisprudence are very much confined to the statement of principles, which are illustrated by cases.

The Lectures on MATERIA MEDICA consist of the history of the various articles used in medicine, their physical and medicinal properties, their application to the treatment of disease, and the forms, modes, and quantities in which they are administered. Specimens of each medicine, and colored engravings of medicinal plants, are exhibited at the Lectures, while an opportunity to observe the effect of those most in use is afforded in the Clinical Lectures given by the Professor at the Hospital.

The Lectures on the PRINCIPLES OF SURGERY AND CLINICAL SURGERY continue four months, during which the students visit the surgical patients at the Hospital and attend all the operations.

In the CLINICAL LECTURES, the Professor speaks of the cases admitted into the surgical department of the Hospital, describes the disease, gives the diagnosis and prognosis, with the mode of treatment. In the Clinical Lectures are described the surgical operations which are performed, with such remarks as to the mode of performing them, and the particular manner in which each operation is done, as are thought likely to be useful and instructive to the students.

A collection, made in Europe, of plaster models, colored to represent various surgical diseases, has been recently introduced into this department.

The CHEMICAL LECTURES are continued during four months, four Lectures being given each week. The chemical apparatus, to which additions are constantly made, is very extensive, and enables the Professor to illustrate the various subjects with all the requisite experiments.

The course of the THEORY AND PRACTICE OF PHYSIC embraces the Lectures given at the Medical College, on the general principles of Pathology and Therapeutics, and on the history and treatment of particular diseases, and the Clinical Lectures given at the Massachusetts General Hospital. A collection of preparations in plaster, to the number of about fifty, admirably colored, has been recently imported from Paris, for the use of this department. These preparations not only serve to exhibit the morbid anatomy of the particular diseases of which they are examples, but also constitute a series of illustrations of the various elementary forms of disease. Morbid *post-mortem* appearances, in recent specimens, form very important means of pathological instruction in this department. This subject is also fully illustrated in the special course of Lectures delivered by the Professor of Pathological Anatomy.

The CLINICAL LECTURES on Medicine at the Hospital are given twice a week, and occupy two hours each. Students have an opportunity of visiting all the cases, and of observing and learning the symptoms and treatment of each case, and particularly of the exploration of the body, for the PHYSICAL SIGNS of disease, by *palpation*, *auscultation*, and *percussion*.

Taking into view the amount of instruction given in this School, the extensive apparatus with which it is furnished, its connection with the numerous cases and operations of one of the best conducted hospitals in the United States, together with the general thorough acquisitions and high respectability of its graduates, it may be doubted whether any seminary in the country offers the means of a more complete professional education than may be obtained in the Medical School of Boston.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

The FACULTY of MEDICINE consists of the President, and the Medical Professors and Lecturers, one of whom, to be chosen by themselves, shall always be Dean. Students shall matriculate with the Dean, by entering their names in a book kept by him, (which shall contain an obligation that

they will submit to the laws of the University and to the direction of the Faculty of Medicine,) and by paying three dollars. The Faculty shall hold two examinations annually for the medical degree, at which three members shall be a *quorum* for business. The first examination shall be held on the day next succeeding that on which the winter courses end, at ten o'clock, A. M. The second, on the Monday next but one preceding the Commencement in July, at ten o'clock, A. M. In extraordinary cases, the Faculty may hold meetings for examination at other times.

The following are the conditions on which students are admitted to examination.

1. Each candidate shall furnish evidence that he is twenty-one years old.

2. He shall have attended two full courses of the Lectures in this College. Nevertheless, a similar course in any other College or University approved by the Medical Faculty may take the place of one of these. A third course may be attended without fee.

3. He shall have studied three full years with a regular physician, and be of good moral character.

4. If not graduated in the Arts, he shall satisfy the Faculty in respect to his knowledge of the Latin language and experimental philosophy.

Certificates of competent persons will be received as satisfactory proof of these facts.

Four weeks before examination, he shall hand or send to the Dean a Medical Dissertation written by himself, certificates of time from the physicians with whom he has studied, tickets to the Lectures, and the graduating fee, which is twenty dollars. The Dean shall submit the Dissertations to the Faculty.

Each candidate having complied with these statutes shall be examined separately in Anatomy, Physiology, Chemistry, Materia Medica, Midwifery, Surgery, and the Theory and Practice of Medicine, and upon his Dissertation. The decision in regard to each shall be made and declared to him at the close of his examination, by the votes of the major part of the members of the Faculty present, and, if favorable, shall be recorded by the Dean, and by him certified to the President, to be laid before the *Senatus Academicus.*

Those candidates who have received from the *Senatus Academicus* the final approbation and degree will, after the spring graduation, receive their diplomas from the Dean; and those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge on Commencement day.

The Lectures for Medical Students, on the various branches mentioned in the Statutes, are delivered at the Massachusetts Medical College in Boston. They commence annually on the first Wednesday in November, and continue four months.

Medical Students may attend gratis the public Lectures given by any of the Professors to Undergraduates at the University in Cambridge.

Boylston Prize Dissertations.

Two Annual Prizes are assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertations on Medical Subjects, proposed by a committee appointed by the President and Fellows of the University.

Each of the prizes is of the amount of *fifty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. John C. Warren on or before the first Wednesday in April.

The Annual Meeting at which the prizes are awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for.

No prizes are awarded if no one of the Dissertations presented is thought to be of sufficient merit.

LAWRENCE SCIENTIFIC SCHOOL.

The following courses of instruction will be given in the Scientific School at Cambridge, during the current Academic Year, commencing on Thursday, August 30th, 1849.

The instruction will be given in lectures, recitations, or both, according to the nature of the study, and at the discretion of the instructer.

Candidates for admission must have attained the age of eighteen years, must have received a good common English education, and must be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, and give bonds, in the sum of $ 200, with a surety resident in Massachusetts, for the payment of all dues to the School.

Members of the School, on leaving it, will receive a certificate of the number of Terms for which they have been attached to it, and of the studies pursued by them.

The number and choice of studies to be pursued are optional on the part of the students, who will, however, be counselled on these points by the Professors. Attendance on the lectures and recitations is voluntary. For this as well as other reasons, the government of the University wish wholly to discourage the resort of young men to the Scientific School, who do not, in the opinion of their parents and guardians, possess that stability of character and firmness of purpose, which will insure a faithful performance of duty, without academic discipline.

I. CHEMISTRY.

Professor Horsford will continue to receive special students to the course of experimental instruction in Chemistry, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M.

The course will be modified to meet the wants of those designing to

pursue practical analysis, manufacturing, metallurgy, medicine, engineering, agriculture, or instruction, and proportioned in duration to the objects and previous acquisitions of the student.

A course of Lectures upon the Practical Application of Chemistry to the Arts, in the First Term, and upon Theoretical and Experimental Chemistry, in the Second Term, will be given by Professor HORSFORD.

Excursions will be made in term-time to manufacturing establishments in the neighbourhood, where the practical application of Chemistry to the arts may be witnessed.

Turner's Elements of Chemistry, edited by Baron Liebig and Professor Gregory.

Books of Reference.

Gmelin's Handbuch der Chemie, and Rose's Lehrbuch der Analytischen Chemie.

II. ZOÖLOGY AND GEOLOGY.

The instruction in this department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the next Academical Year.

Besides the instructions of the lecture-room, Professor Agassiz will afford to the students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excur-

sions in the neighbourhood will be made in term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field of observation.

III. ENGINEERING.

This department has not yet been organized, but it is expected to be brought into operation during the present Term.

Should a sufficient number of students require it, the following special courses will be given.

Botany.

Professor Gray will give, during the Second Term, at the Botanic Garden, a course of twenty-four Lectures, or lessons, on Structural Botany and Vegetable Anatomy, with microscopical demonstrations.

Text-Books and Works for Reading and Reference.

Gray's Botanical Text-Book, 3d ed.

Cours de Physique, par Lamé.
Whewell's History of the Inductive Sciences.
Becquerel, Traité de Physique.

Comparative Anatomy and Physiology.

Dr. Wyman will give, during the Second Term, a course of twenty-four Lectures on Comparative Anatomy and Physiology. In this course, the various organs will be described, as they exist in the animal series, in connection with the uses to which they are subservient. Opportunities will be afforded for studying the various tissues with the aid of the microscope; and the various physical phenomena manifested by living beings will be illustrated by experiment.

Astronomy.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. William C. Bond, Director of the Observatory, and Mr. George P. Bond, Assistant Observer.

The Observatory is supplied with the apparatus for simultaneous magnetic observations, which will be intrusted to a class of students desirous of taking charge of it.

FEES.

In the department of Chemistry the fees for SPECIAL STUDENTS will be, for instruction six days in the week, per Term of twenty weeks . . . . . $ 50.00

For laboratory apparatus and supplies 25.00

For three days per week, two thirds, and for one day, one third of the above sums, respectively.

The special students in Chemistry will also supply themselves at their own expense with such articles of apparatus as are consumed in using, such as flasks, corks, tubing, lamps, crucibles, &c., together with alcohol, and platinum, gold, and silver solutions.

For SPECIAL STUDENTS in any of the departments, (except Chemistry,) who pass several hours daily under the immediate direction of the Professors in their laboratories, or upon excursions, per Term of twenty weeks . . . . . $ 50.00

This is the *maximum* charge, which the instructers in certain cases may diminish at their discretion.

The Lectures delivered in the Scientific School may be attended by members of the School, and by members of any of the Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of ten dollars *per course* for the Lectures on Chemistry, and five dollars *per course* for any other Lectures ; and they may attend without charge any of the Lectures delivered to undergraduates by the Professors in the Academical Department.

For further information concerning the School, application may be made to Professor E. N. HORSFORD, Dean of the Faculty.

LIBRARY.

The University Library is divided into four departments, viz. Theological, Medical, Law, and Public ; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The Theological Library is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 3,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers in the original. Means have been recently devised to add to the Library valuable modern works in Theology and Morals, as they are published.

The Medical Library is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 1,200. It contains all the elementary works which are the most important and the most used by students. Besides these, it has the writings of the early Greek and Latin medical Fathers, and the works of the later medical classics ; and, with the latter, it contains numerous valuable modern works.

The Law Library is in Dane Law College. It is designed for the officers and students of the Law Institution. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others by writers of France, Germany, and Spain.

The Public or College Library is in Gore Hall. This is much larger than the others, and is rapidly increasing. It is for the common use of the whole University, in this respect differing from the other branches of the University Library. The total number of books is about 56,000. Of these, 2,500 are allowed for duplicates, and 1,000 for the Boylston Medical Library, which is *immediately* connected with it.

The total number of books in the University Library is, then, as follows: —

Theological Library	about 3,000
Medical do.	" 1,200
Law do.	" 13,000
Public do.	" 56,000
Society Libraries of the Students	" 10,000
Total	about 83,200

EXPENSES.

The necessary expenses of an undergraduate for a year, included in the College bills, are as follows.

Instruction, Library, Lecture-rooms	$ 75.00
Rent and Care of Room	15.00
Board for 40 weeks at $ 2.50 per week	100.00
Text-books (average)	12.00
Special Repairs, &c.	from 1 to 2.00
	$ 204.00

Other expenses must vary with the economy of each student. Wood and coal ready for use are delivered at the students' rooms, by the lessee of the College wharf, at the market price, usually at $ 6.50 per cord for wood, and $ 7 per ton for coal. The rent of rooms in private houses, from $ 30 to $ 60 per annum. Board in the town, from $ 2.50 to $ 3.50 per week. The students find their own beds and furniture.

LAWS RELATIVE TO THE PATRON.

[EXTRACTED FROM THE GENERAL LAWS OF THE UNIVERSITY.]

SOME gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such students.

The Patron shall have particular instruction from the authorities of the University concerning the kind of expenses allowed to be incurred by the students whose funds are in his hands; and he shall make no disbursements and pay no bills inconsistent with such instructions, and whatever bills he may pay shall contain a distinct specification and charge of every article.

The Patron shall give a detailed account of the expenses incurred by each student under his care to the Faculty, and to the Corporation, when required.

The parent or guardian of each student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

Every student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent., as a compensation to the Patron for the disbursements made on his account.

No student, subject to this law, shall be permitted to continue at the University, unless he comply with it.

No such student is allowed to contract any debt without an order from the Patron, or from his parent or guardian.

The foregoing provisions of law, notwithstanding their obvious utility, having for some time been falling into disuse, it has been judged highly expedient by the Faculty and Corporation of the University, that they should be revived.

Inasmuch as circumstances may render it unnecessary or inconvenient to apply the foregoing law in all cases, it has been determined for the present that those students only should be placed under the care of the Patron, whose parents or guardians shall signify to the President their desire to that effect, and their willingness to allow the commission above mentioned for his services.

Mr. Elijah F. Valentine, of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

Beneficiary Fund.

Various bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has heretofore been given as a gratuity, in sums ranging from twenty to sixty dollars. As some students would prefer to receive the aid in the form of a loan, the Corporation have determined to divide the income of their beneficiary funds into two parts ; one of which shall still be given as a gratuity, and the other granted on loan to such students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the 15th of May*, annually, by the parent or guardian, or by the student himself, if of age. The application should state particularly the circumstances of the case, and whether a gratuity or a loan is desired.

Loan Fund.

In addition to the beneficiary funds here described, of which the President and Fellows are trustees, there is a "Loan Fund," raised a few

years since by subscription among the friends of the University, the interest of which, now amounting to about one thousand dollars, is annually distributed to meritorious students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a board of trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. Although it has been in operation but about ten years, one thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund by the parent or guardian, or by the student himself, if of age, should be addressed to the President as early as *the 1st of December*.

Monitorships.

Besides the foregoing provisions for the aid of meritorious students, the various monitorships, &c., amount to about three hundred and fifty dollars a year, which may be considered as an addition, to that extent, to the Beneficiary Funds of the institution.

PRIZES.

1. Deturs.

A distribution of books, called "Deturs," is made from the income of the Hopkins Foundation, at the commencement of the Academic Year, to meritorious students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty-seven *Deturs* were given in the Sophomore Class, and six in the Junior Class, the last year.

Deturs will also hereafter be given to such members of the Junior Class, as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

---

2. Bowdoin Prize Dissertations.

In the Second Term of the Academic Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows.

A prize of *fifty dollars* for the best Dissertation by a Resident Graduate, on either of the subjects proposed for writers of that standing ;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that class ;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second best Dissertation by a member of the Junior Class, on either of the subjects proposed for that class ;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

Instead of the sums of money above named, gold medals of equivalent value will, if preferred, be given to the successful competitors.

The Dissertations must be sent to the President's Office by the 1*st of May*, annually. *No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and, if the latter, of what class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer.

The Dissertations must be written upon letter-paper of good quality, of the usual quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academic Year.

FOR RESIDENT GRADUATES.

Moral and Intellectual Progress of a People as affected by Forms of Government.

Character of Oliver Cromwell.

FOR MEMBERS OF THE SENIOR CLASS.

Cicero as an Orator, a Philosopher, and a Man of Letters.

History and Resources of the Valley of the Mississippi.

FOR MEMBERS OF THE JUNIOR CLASS.

Characteristics of Herodotus as an Historical Writer.

Public Amusements of the Ancient Romans.

The prizes for the past Academic Year (1848 - 49) were assigned as follows.

Resident Graduate.

Adolphus A. Whitcomb.

Committee for reading the Dissertations and adjudging their merit, — George S. Hillard, Esq., Charles Sumner, Esq., and Hon. Joel Giles.

Senior Class.

Charles L. Flint, *a first prize.*
Thomas M. Stetson, *a second prize.*

Committee, — Rev. Charles W. Upham, Hon. Joseph Waters, and David Roberts, Esq.

Junior Class.

James C. Carter, *a first prize.*
Charles E. Bombaugh, *a second prize.*

Committee, — Hon. John G. Palfrey, Rev. William Newell, and Rev. John A. Albro, D. D.

---

3. Bowdoin Prizes for Latin and Greek Composition.

Prizes will be assigned for Latin and Greek compositions, prose and verse, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *twenty dollars* for the best composition in Latin Prose, or Greek Verse, by a member of the Senior Class.

A prize of *fifteen dollars* for the best composition in Latin Verse, or Greek Prose, by a member of the Junior Class.

The value of the prize will be given in books or money, at the option of the successful competitor.

The subjects for the compositions are given out and the prizes awarded by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions must be left at the President's Office by the *1st of May*, annually, in sealed envelopes, accompanied by sealed letters containing the authors' names.

Subjects of the Prizes for the current Academic Year.

FOR THE SENIOR CLASS.

Latin Prose. *De Philosophiæ studio inter Romanos, quando, quo modo, et quo concilio ei operam dederint.*

Greek Verse. *The Dialogue between Ion and Adrastus*, in Talfourd's "Ion," Act. IV., Scene I. ; to be translated into Iambic trimeters.

FOR THE JUNIOR CLASS.

Latin Verse. The commencement of "*Horatius*," in "Macaulay's Lays of Ancient Rome," twelve stanzas ; to be translated into Latin hexameters.

4. Boylston Prizes for Elocution.

Agreeably to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own composition ; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two classes.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes ;

two first prizes, namely, *fifteen dollars*, or a gold medal of that value, to each of the two best speakers; and three second prizes, namely, *ten dollars* or a gold medal of that value, to each of the three next best; Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the first prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 19th, 1849.

The two First Prizes,

To Augustus W. Whipple, a Graduate of the Class of 1849.
" Robert Bickford, of the Junior Class.

The three Second Prizes,

To Charles L. Flint,
" Charles C. Follen,
" John D. Taylor,
} Graduates of the Class of 1849.
